9 April 1956

MEMORANDUM FOR: Chief, Economic Research, ORR

THROUGH:

Assistant Director for Research and Reports

FROM:

Assistant Director for Basic Intelligence

SUBJECT:

NIS 26, Section 64 (M)

(Manufacturing and Construction)

In The subject NIS contribution received from ERA/ORR on 30 March 1956 is returned herewith as it fails to meet requirements with respect to completeness.

- 2. The apecific deficiencies are:
- No graphics for ORR produced elements were included.
 - (b) Sections C, F, G, and H, prepared by ACSI, were not submitted with this contribution.
- 3. With respect to (a), it was stated in the letter of transmittal that the graphics would be submitted about 15 April, and that the sections listed in (b) would be sent directly to OBL from ACSL by a April of it was also stated that the portions of the binates index, figure list and caption list related to Sections C. F. G. and H were prepared from a preliminary draft of the ACSL contributions and may not correspond with the final ACSL contributions.
- 4. It is realized that the deficiencies noted in (b) stem from failure of offices outside of ERA to meet their commitments. However, OBI cannot review an NIS contribution until it is complete, and with over forty different contributors this Office is in no position to carry the administrative burden of storing incomplete contributions and, as is frequently necessary, following up with the producing agency to obtain the missing items.
